

# CISTEM'16

International Conference on Electrical Sciences and Technologies  
in Maghreb

October 26<sup>th</sup>- 28<sup>th</sup>, Marrakesh – Benguerir, Morocco

## SCOPE

The International Conference on Electrical Sciences and Technologies in Maghreb CISTEM, is a federative and structuring event that brings together the Maghrebian electrical specialists. It is also a privileged exchange channel aiming to increase inter-Maghreb interactions and international visibility.

The first edition in Tunis (CISTEM-2014) was successful as 235 researchers have participated, and the program included a wide number of plenary conferences, round tables, tutorials as well as special workshops. In addition, some of CISTEM'14 papers were published in IEEE Xplore, while others were edited in partnership with 4 high-impact journals: COMPEL, ELECTROMOTION, EPE Journal and EJE.

The second edition of CISTEM will be held in «Marrakesh and Benguerir» from October 26<sup>th</sup> to 28<sup>th</sup>, 2016. This event foresees the participation of many maghrebian exhibitors, as well as the organization of round tables discussing the cooperation between Industry and University. Furthermore, CISTEM-2016 aims to create a maghrebian network for research in Electrical Sciences and Technologies.

If you would like to share experiences and ideas in this field, CISTEM'16 will be the right event for you. For more details, please visit the official website: <http://cistem2016.uca.ma/>
